
	<b>Sugarcane Egg Cup</b>	<b>2022.12.05</b> 102-20085-01/2022 v1 <b>Rev. 0 / MM</b>
---	------------------------------	---

#### Material description:

Our sugarcane egg cup is sturdy and is used as both a cup and a display for eggs. These sugarcane cups are a good alternative to plastic plates, very useful for an Easter breakfast or Christmas party, for example.

The production of cane sugar creates large amounts of residual material called "bagasse". These remains would have burned down but are now used as a natural raw material for the production of sugar cane products.

	<b>Egg tray</b> Ø93mm <b>Article numbers</b> 427.820
